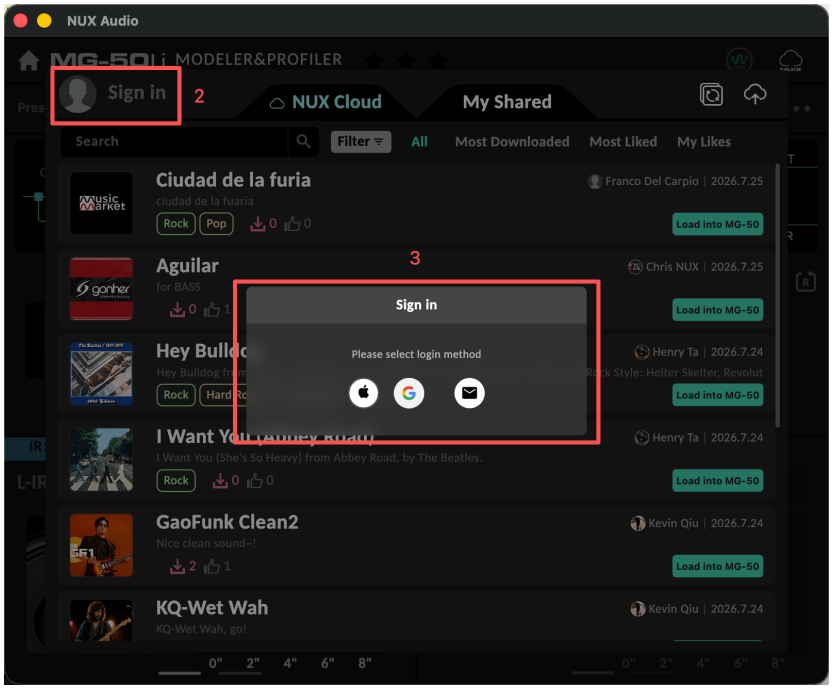
NUX Cloud Backup and Preset Sharing Guide

2026-07-27

1. Register and Sign in

Open the NUX Audio APP, tap the NUX Cloud icon in the upper-right corner to enter the Cloud page, and the login screen will pop up. Currently, Apple Account, Google Account, and Email are supported for registration. Email registration is recommended because it is very fast.

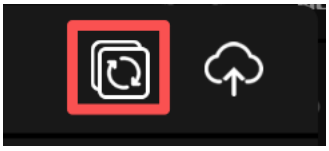


2. How to Backup on NUX Cloud

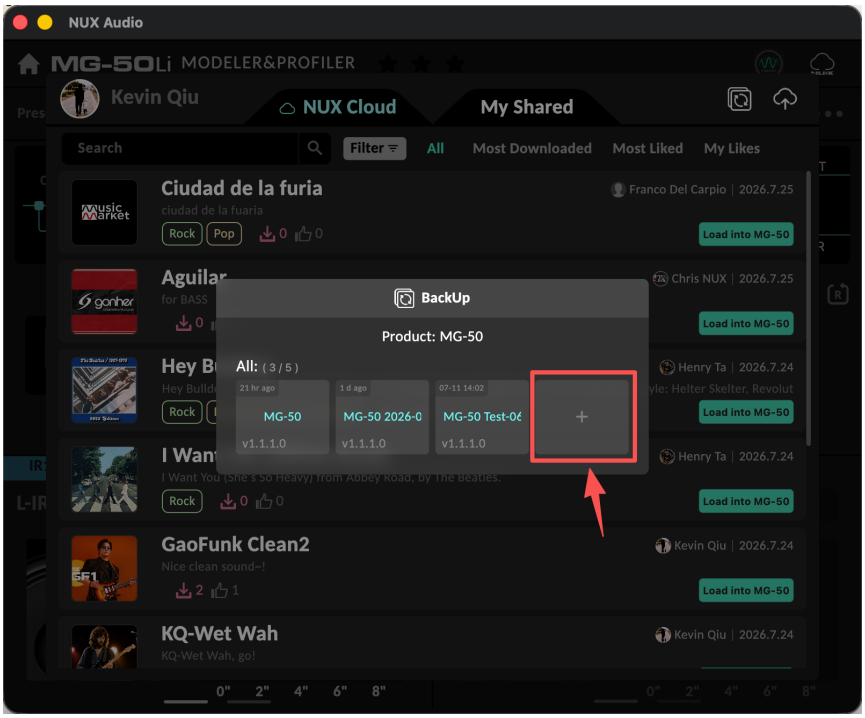
Open the new version of the NUX Audio App and connect it to the MG-50Li (Note: the firmware must be upgraded to V1.1.1 or above).

1. Tap the NUX Cloud icon in the upper-right corner to enter the Cloud interface.

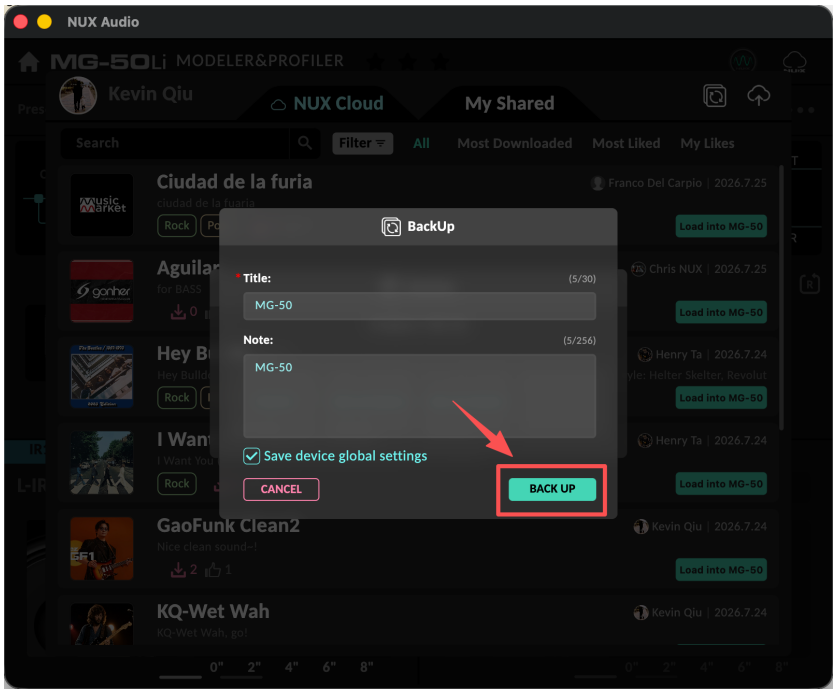
2. Tap the Backup icon in the upper-right corner to enter the Backup interface.



Then tap the "+" button to enter the backup screen.



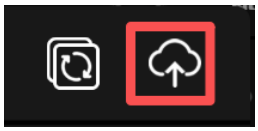
Enter the required information, then tap BACKUP. The system will start the automatic backup, which takes approximately 2–3 minutes.



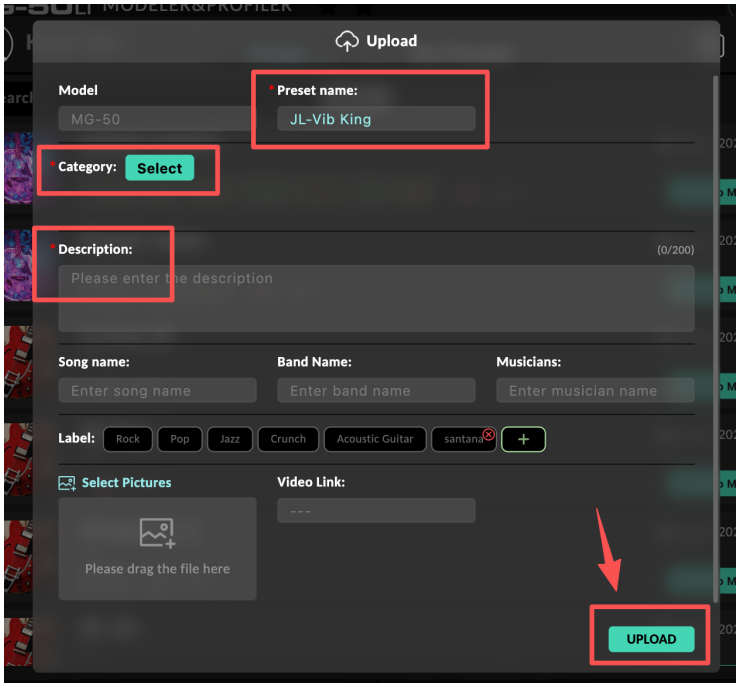
After the backup is complete, the system will prompt Complete!

3. Share Preset to NUX Cloud

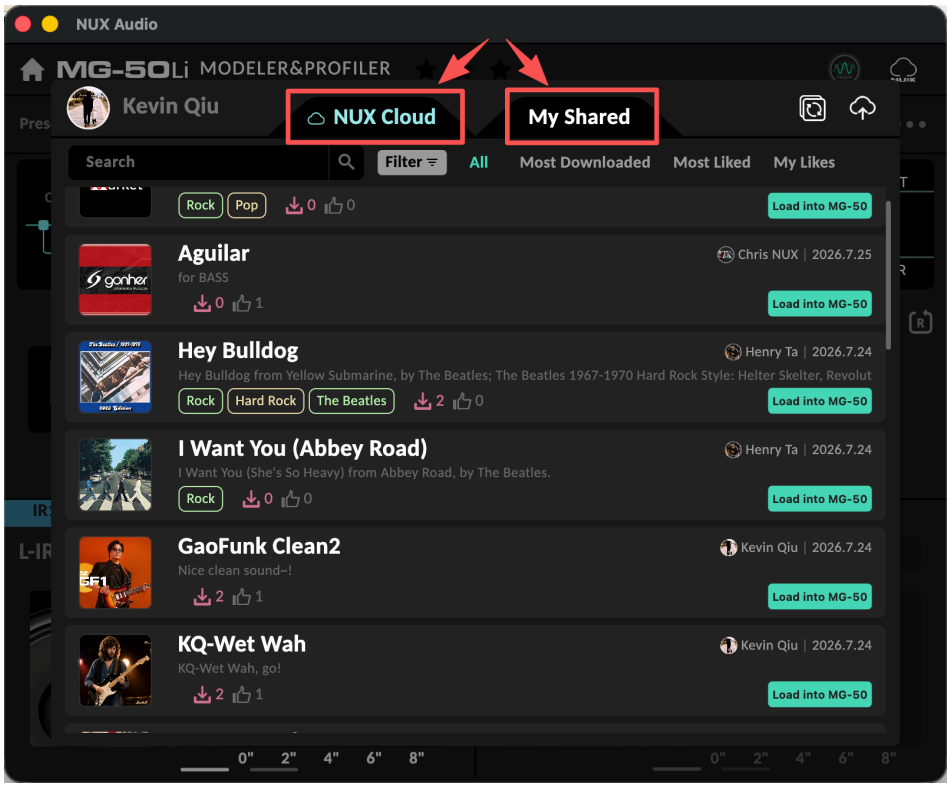
Tap the upload icon in the upper-right corner.

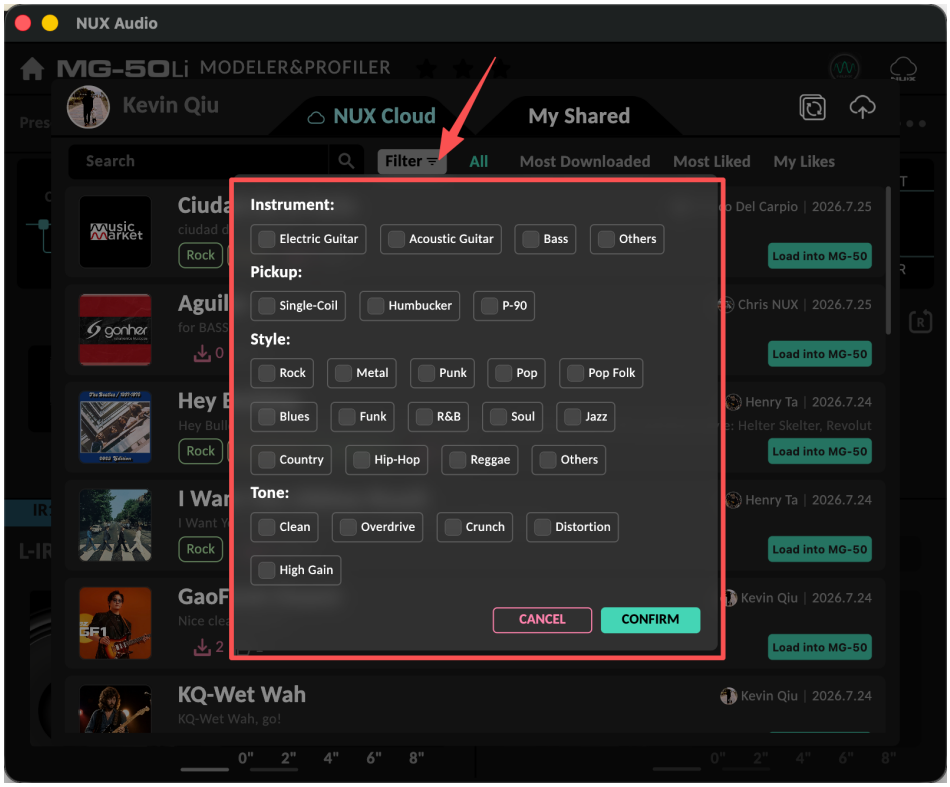


Fill in the required information, then tap UPLOAD in the lower-right corner.



After the upload is complete, you can refresh NUX Cloud / My Shared to view the uploaded data.





Tap Filter to quickly find the relevant presets in NUX Cloud.
